LEED and BOMA BEST

Canada's Leader in
**CLIMATE CONTROLLED
IRRIGATION**

ANNUAL REPORT
2013

our business

► CLIMATE CONTROLLED IRRIGATION ◀

Eliminating waste in outdoor watering and delivering significant **\$\$\$ savings** on the utility bills for our over **600 clients**

► LEED CONSULTING ◀

Help clients attain **LEED Credits** through Water Efficient Landscaping.

► WEATHER DATA ◀

Supplying accurate and reliable weather data from our network of **40 weather stations** strategically located in major urban markets from **Vancouver** to **Montreal**

Government of Alberta ■

2013 highlights

▶ **430 million litres** of potable water saved (or 39% savings)

▶ reduction to our clients' utility bills of **\$880,000**

▶ average water savings of 1.1 million litres per **commercial property**

▶ average water savings of 1.6 million litres per
multi-family residential property

▶ over **600 clients**

▶ average **ROI of 1.5 years** for commercial and multi-family residential properties

▶ delivered **LEED NC** and **LEED EBOM Credits**
to clients in **Calgary, Edmonton** and **Toronto** using Climate Controlled Irrigation with
conventional spray/rotor sprinklers

▶ worked with over 60% of the companies who received **BOMA BEST** certifications

▶ **new clients:** **CREIT, EPIC Realty,**
Pure Industrial Real Estate Trust (PIRET), Bentall Kennedy Retail,
Avenue Commercial, Simco Management, View West Management,
Bentall Kennedy (Edmonton) and **Morguard** (Edmonton).

results

A sample of client water savings

▷ MULTI-FAMILY RESIDENTIAL

Property	2013 Water Savings (£)	2013 Cost Savings (\$)	ROI (Yrs)
Coventry Meadows	1,185,000	\$2,400	2.8
Raven Ridge Gardens	1,645,000	\$3,400	1.3
Wyldewood Estates	7,390,000	\$14,600	0.7
Mosaic of Aspen Hills	1,367,000	\$2,800	2.0

Real Canadian Superstore: Coventry Hills	3,257,000	\$6,700	0.6
Triovest: Meridian Business Park	1,649,000	\$3,400	1.1

understanding waste

► timer-based irrigation wastes **up to 60%** in potable water

Factors Affecting Irrigation Efficiency

TIMER BASED

Watering based upon arbitrary pre-programmed schedule: typically 3x per week

CLIMATE CONTROLLED

Watering based on changing climatic conditions i.e. watering more often during hot, windy, dry periods and far less often during cool, overcast, wet periods.

2007 to 2013 Irrigation Frequencies: Calgary

	2007	2008	2009	2010	2011	2012	2013
Climate Controlled	25	29	34	22	28	37	33
Timer-Based	66	66	60	66	66	69	66

how it works

How It Works

Weather Stations

JUST 4 SIMPLE STEPS:

- 1** replace only your timer-based irrigation controller with our climate-based controller
- 2** activate the climate-based controller to ExactET's local weather network
- 3** program the climate based controller to apply the correct amount of water for the site conditions (i.e. slope, soil type, root depth, shade, etc.)
- 4** monitor and report measurable water savings results
