

2 BILLION LITRES OF WATER SAVED

Proven Results

Clients

LEED and BOMA BEST

**Canada's Leader in
CLIMATE CONTROLLED
IRRIGATION**

ANNUAL REPORT
2014

our business

efficient outdoor **water management** through **Climate Controlled Irrigation**

Factors Affecting Irrigation Efficiency

- ▶ Conventional timer-based irrigation systems **waste up to 60%** in potable water
- ▶ Most of the waste is due to watering based on an **arbitrary pre-programmed** schedule (typically 3 x per week)
- ▶ Climate Controlled Irrigation **eliminates waste** by watering based on changing climatic conditions

- ▶ **the proof:**
Irrigation frequencies for Calgary

	2007	2008	2009	2010	2011	2012	2013	2014
Climate Controlled	25	29	34	22	28	37	33	31
Timer-Based	66	66	60	66	66	69	66	60

Weather Stations

◀ **how it works**

- ▶ ExactET **simply replaces** your existing timer-based controller with their climate-based system

2014 highlights

▶ **438 million litres** of potable water saved (or 40% savings)

▶ reduction to our clients' utility bills of **\$974,000**

▶ average water savings of 1.0 million litres per **commercial property**

▶ average water savings of 1.3 million litres per
multi-family residential property

▶ almost **700 clients**

▶ average **ROI of 1.5 years** for commercial and multi-family residential properties

▶ delivered **LEED Credits**

▶ worked with over 60% of the companies who received **BOMA BEST** certifications

▶ **installed and managed** a large irrigation central control system
with flow monitoring and climate control **in Toronto**
